

## NewPage Wickliffe KY Papermill

- Paper production 1970
- Employs about 500 people
- Produces over 900 tons pulp, 800 tons paper per day
- Consumes over 1,000 tons bark fuel per day

## Wickliffe Wood Supply

- Buys logs, wood chips, bark, sawdust in six states
- Suppliers – landowners, loggers, sawmills, wood dealers
- Six satellite wood buying yards
- 4,000 tons logs, chips; 500 tons bark fuel per day
- Certified Wood Sources – FSC, SFI, KY-TN Certified Master Logger (CML) program

## Wood Sourcing at Wickliffe

- Significant annual volume
- Consistent history of wood buying
- Wood resource available, accessible, but large geographic area
- Well developed supplier network
- Infrastructure of loggers, woodyards, truck , rail to deliver wood

## Biofuel Development from Wood

- **Beneficial**
  - Carbon neutral
  - Replace foreign oil
  - Provide jobs, stimulate economy
- **Issues / Concerns**
  - Statistical versus available volume
  - Economically feasible harvest and concentration
  - Infrastructure capacity to handle, accumulate and transport
  - Impacts on current consumers – competition versus subsidies
- **Recommendations**
  - Promote wood use and promote growing wood
  - Maintain level playing field among competitors, competing uses
  - Use economic incentives judiciously, consider all effects
